-

The Whiteout snowmobile and ATV trailers are specialty built for the outdoors. These 8.5' wide trailers are versatile and can be used for easy loading and unloading of any outdoor toys. While the 12' long Whiteout is a smaller option in comparison to other snowmobile trailers, it makes up for it with the list of standard features and its one-of-a-kind design. Spring assisted front ramp and rear doors make for easy drifting in and out of the trailer.

UNIQUE DESIGN FROM 12' - 14' LONG

The Whiteout offers typical standards that you expect from Pace American, from tube main frame construction and one-piece aluminum roof, to automotive undercoating. You can also expect LED lighting features, 2,500lb. recessed D-rings, electric breaks with breakaway battery and more.

Ready to look at the unlimited list of trailer options for the Whiteout snowmobile trailer? Consider upgrading to aluminum rims, adding a spare tire or building in a 14" X 14" fuel door.
